**Publicity**  
Fear of the public is the greatest preventive of wrongdoing, the world has ever known. It is the greatest agency for the protection of the public that has ever been invented. It is worth more than all the courts and juries that exist in the world today.

Many a man has been kept in the straight and narrow path through fear that his wrongdoing might become known.

This is particularly true as to public affairs. There should be the fullest and freest publicity to all our public offices and those who fill them.

Whenever I find a public official trying to keep anything private or secret, it is always from becoming known that can be but one of two motives:

The desire to hide something crooked or something innocent.

Just as sure as you are born.

If high water does not follow the dry spell we are having the corn on low lands is likely to produce well as the ears are large and the stalks are green looking, in striking contrast with the parched and yellow fields of corn on high land. I sold wheat at \$1.25 a bushel and corn at \$1 a bushel the past week, but if conditions do not change soon as regards to weather, prices are sure to advance.

The price of gasoline has gone down to 25¢ on the local market. It was told an instance where a drummer was traveling in a near-by county recently when his car caught on fire from leaking gasoline and was
